PROFESSIONAL SUMMARY

Passionate Python developer and aspiring Full Stack Developer with hands-on experience building and launching Venz AI, a production SaaS platform for AI-powered prompt refinement. Skilled in Python, FastAPI, Django, Firebase, and MongoDB, with a strong interest in artificial intelligence, product development, and scalable web applications.

EDUCATION

Bachelor of Science in Computer Science (B.Sc. Computer Science), 05/2027
K. V. Pendharkar College, Dombivli Dombivli, India

Third Year (TY)

- Maintained a 9+ pointer across the first four semesters (through May 2026).

Python Certification, InfoBright Computer Institute 04/2024 – 05/2024
Completed certification for Python Programming from InfoBright Computer Institute Dombivli, India

PROJECTS

Venz AI – Founder & Lead Developer, <https://venzai.tech>

- Built a full-stack SaaS platform that transforms simple prompts into optimized and structured prompts.
- Integrated AI APIs, authentication, payments, subscriptions, and credit-based usage.
- Developed using Python, FastAPI, Firebase, and Groq API.
- Designed and launched the platform independently as a production-ready web application.

TECHNICAL SKILLS
